Capability	Description of Capability	Costs or Fees	Contractual Limitations	Technical or Practical Limitations
<p>Picaso provides tools for innovation to help you improve your workflow efficiency. PICASO collects and integrates data, bringing documentation tools, alerts and reminders all into one system, simultaneously working to increase workflow efficiency, and reducing the need for multiple systems. An accessible touch screen in all patient rooms allows nurses to quickly document bedside tasks. Nurses spend less time on documentation and more time with patients. Critical alerts and reminders are one touch away, alerting nurses of patients at risk.</p> <p>PICASO FEATURES:</p> <ul style="list-style-type: none"> <li>• Unique touch screen located in patients’ room</li> <li>• Bedside task tracking</li> <li>• Color coded charting options</li> <li>• Instant data saving</li> <li>• User specific interface</li> <li>• Easy screen to screen navigation</li> <li>• Integrated universal care plans</li> <li>• Nurse assessments</li> <li>• Integration of medical equipment</li> <li>• Improved regulatory compliance of quality of care</li> <li>• Additional revenue to be gained from auto-charging based on PICASO documentation</li> <li>• Decreases in never events</li> <li>• Better compliance with care plan requirements</li> <li>• Better compliance with every 2 hour monitoring of patients in restraint</li> </ul> <p>Picaso is a single application encompassing all above features; Picaso has been certified for meaningful use. For the full list of certifications, see the next page.</p>	<p>PICASO, a certified software application, proven to reduce clinical documentation time and allow caregivers to devote more time to patient care; ensures regulatory compliance through intuitive touch technology.</p> <p>IWT’s PICASO intuitive software promotes quick entry/display of clinical data. This mobile software also runs on PC’s and touchscreen devices. PICASO’s efficiency compliments current EMR/EHR systems or can be implemented as it’s own stand alone system</p>	<p>There are no costs/limitations that are specific to the individual capabilities of the system.</p> <p>Use of Picaso is provided to customers for an annual subscription fee based primarily on the number of beds in the facility.</p> <p>We also charge for implementation and training. Those fees are influenced by:</p> <ul style="list-style-type: none"> <li>• the number of system integrations that are required</li> <li>• the number users of the system</li> </ul>	<p>No Contractual Limitations</p>	<p>Picaso software is installed on customer-owned equipment.</p> <p>Customers are responsible for ensuring the servers and desktops which use the system are properly secured and compliant, as they would need to do for any of their other internal systems.</p>
